

INSTRUCTIONS: Brazil Nut Bird Ornament

Make these little pinecone elves for your own version of "Elf on the Shelf". Pinecones can be found in the outdoors or at a craft store.

SUPPLIES

Brazil Nuts in shell
Aileen's Tacky Glue
Leather and felt scraps
Strong needle
Thread for hanging
2 little bitty rhinestones for the eyes

Using the tall hat pattern, cut a hat from scrap leather. Glue the hat's long edges with Aileen's Tacky Glue and once dry, glue it to the top of the nut. Using a strong, threaded needle, push through the top of the hat, attaching the thread to hang the bird from a tree. Cut a tiny triangle for the beak and glue. Add the two rhinestone eyes with glue.
