

# INSTRUCTIONS: Wooden Snowmen

by **Claudia Sieb**

## Supplies:

Wooden “balls” — we found ours at Michaels.

The larger ones have a flat bottom and the smaller are beads.

E6000 Glue or Aileen’s Tacky Glue

Metal Washer

Toothpaste cap

Twigs

Rhinestones

## Instructions:

Note: E6000 glue is serious stuff. Kids should wear gloves and it should be used in a ventilated area. You can also use Aileen’s Tacky Glue, which is safer but may have trouble attaching the arms.

Hat: Glue the toothpaste cap to the center of the washer. Paint with primer. (As I was working inside I used brush on primer, but spray on works better.) When dry, paint the “hat” whatever color you like!

Body: Sit the flat bottom, and center your smaller wooden bead on top, and glue. (The bead hole will be covered by the large ball and the hat.)

Glue on twigs for arms and a few rhinestones for buttons. Glue the hat onto the head.  
You’re done!
