MAP IS NOT TO SCALE

Mariposa Trail System

Mariposa is a truly unique neighborhood, built amongst a flourishing yet fragile ecosystem. There are various trails throughout our community and nature preserve, attracting those who enjoy the beauty of wildlife, tranquility and outdoor activities.

Local residents maintain many of the trails, volunteering their own time and resources. The trails are open to hiking and mountain biking only. While they prove difficult for strollers and wheelchairs to traverse, we also provide access to paved paths and sidewalks.

Visit liveinmariposa.com for more information about Mariposa.
