

INSTRUCTIONS: Alebrije Masks

YOU WILL NEED:

- These alebrije mask cut-outs
- Card stock, construction paper or other sturdy paper.
- Scissors or x-acto knife
- Two long pieces of string
- Tape/glue
- Paint

STEP 1

Print and carefully cut out desired animal pieces; have fun mixing and matching! Trace onto sturdier paper and then cut out.

STEP 2

Paint your mask pieces! Allow to dry.

STEP 3

Pinch the mask together at one of the triangle slits at the top so that the two sides of the triangle gently come together. Tape the edges together on the back side of the mask. Repeat for remaining slits.

STEP 4

Attach any accessory pieces with tape or glue. For ears with tabs, fold at the tab and then tape or glue the tab to the underside of the mask so the ear sticks up.

STEP 5

Thread a long strand of string through each hole and knot the strings to create the straps.

STEP 5

Congratulations your mask is now complete and ready to wear!
