

INSTRUCTIONS: Halloween Candy Tubes

YOU WILL NEED:

- Toilet paper tubes, or rolled and taped heavy card stock
- Tissue, Crepe paper, or other light paper
- Paper to print the spooky characters
- Scissors or X-acto knife
- Glue stick
- Thin ribbon or string

STEP 1

Wrap the toilet paper tubes in your choice of tissue, crepe paper or light paper so that the cardboard is covered; (secure onto tube using your glue stick.) leave an equal amount of extra paper, about 2.5 inches on each end, hanging off each end of the tube so you can tie closed.

STEP 2

Crunch or twist the extra paper on one end of the tube into a classic candy wrapper shape and tie in place with ribbon or string.

STEP 3

Fill the tube with small candy and twist and tie the other end to close.

STEP 4

Print and cut out the Halloween faces provided.

STEP 5

Finally, using your glue stick, glue the Halloween faces around the tube, cutting off any excess.

Done! Now wasn't that easy!
